 to see a demonstration  
 of this activity  
 online!

Get ready to share puppy Valentine's Day cards with your friends and family!

## You will need:

red, white, pink, and black construction paper  
 scissors • glue • colored markers

### ▶ Face

1. Fold your pink paper in half. Draw  $\frac{1}{2}$  of a heart, starting from the fold.
2. Use your scissors to cut the half heart out. Open it up to see a full heart! This will be the dog's face.
3. Trace the full heart onto the white paper and cut it out.

### ▶ Nose

1. Cut your black paper in half and fold it.
2. Draw out a smaller half heart starting from the fold. Open it up to see a small heart! This will be the dog's nose.

### ▶ Eyes

1. Fold another white piece of paper in half.
2. Draw two smaller half-hearts on the crease and cut them out. Open them up to see two really tiny hearts! These will be the dog's eyes.

### ▶ Ears and Tongue

1. Fold a piece of red paper in half long ways and draw a large teardrop. Use as much of the paper as you can. Cut the teardrop out. These will be the ears!
2. Use another piece of red paper and draw another, smaller teardrop. Cut out the teardrop and open it up. This will be the tongue!

*All of your pieces should look like this:*

## CREATING YOUR Valentine

1. Glue the white and pink hearts together where the hearts create a point. Let them dry.
2. Glue the ears and tongue onto the white heart and let it dry. Once the card has dried, close it so the pink heart shows.

3. Arrange your pieces on the pink heart so that it looks like a dog. Glue everything on. Use markers to draw eyes and any other patterns you want on your dog!
